

Press Pro™ News Fount MS

PRESS PRO Fountain Solution is designed and formulated for non heat set, cold offset printing. News Fount MS is proven on several dampening systems such as spraydampening, brush and conventional dampening.

PRODUCT FEATURES

The features press operators and management emphasize are:

- Fast start up shorter clean up time.
- Sharper color and half tone reproduction.
- Good operating window, excellent wetting system in formula to allow highspeed and fullrange of press speeds.
- Good ink and water balance.
- Dampening systems stay clean in the fountain trays, return lines and mixing cabinets.

Press Pro-News Fount MS with these features is a fountain solution that contributes to less waste, high productivity and as a result lower costs.
